Professional Summary

Full Stack and AI Developer with 1+ years of experience building production-grade web applications and LLM-powered products using React, Next.js, Node.js, TypeScript, PostgreSQL, and MongoDB. Shipped 4 commercially released AI products integrating OpenAI and Gemini APIs. Skilled in REST API design, JWT/OAuth authentication, CI/CD pipelines, cloud deployment (AWS, Docker), and Agile/Scrum delivery. Seeking a Full Stack AI Developer or software engineering role to build scalable, reliable systems.

Technical Skills

Languages: Python, JavaScript, TypeScript, PHP

Frontend: React.js, Next.js, Angular, TailwindCSS, Bootstrap

Backend: Node.js, Express.js, NestJS, Flask, REST APIs

Databases: PostgreSQL, MongoDB, MySQL, Supabase, Firebase

AI & ML: OpenAI API, Gemini API, LLMs, Prompt Engineering, NLP, Generative AI

Cloud & DevOps: AWS (EC2, S3), Docker, GitHub Actions, CI/CD, Git

Testing & QA: Jest, Unit Testing, Postman, Input Validation, Debugging

Core Concepts: Data Structures & Algorithms, OOP, System Design, JWT, OAuth, Agile/Scrum, MVC, Database Design

Professional Experience

Freelance Full Stack AI Developer

Mar 2026 – Jun 2026

Sanjeev NC (Client) — Remote

- Built and deployed **4 AI-powered products** (AI Podcaster, AI Rasibalan, Speak to Slides, Chat to Website) integrating OpenAI and Gemini LLMs, speech-to-text processing, and conversational AI workflows, serving **100+ beta users**.
- Integrated Razorpay/Stripe payment gateways, managed end-to-end deployment pipelines, and implemented automated testing workflows — reducing release cycle time by **40%** and maintaining **99%+ uptime** across all services.
- Optimized backend API performance via query tuning and caching, reducing average response latency by **25%** across 3 production applications.

Full Stack Developer Intern

Sep 2025 – Mar 2026

Highonswift — Chennai, India

- Developed scalable full-stack applications using React.js, Node.js, Express.js, MongoDB, and JWT authentication while integrating Generative AI APIs into business workflows.
- Optimized database queries and REST API performance through indexing and aggregation pipeline strategies, reducing API response latency by **30%**.
- Implemented server-side validation middleware across **10+ API endpoints**, reducing error rates by **40%** and improving system reliability.

Frontend Developer Intern

Aug 2025 – Sep 2025

IBM SkillsBuild — Remote

- Built a Study Tracker application in React.js using component-based architecture and Agile/Scrum sprint methodology within a team of 4.
- Improved page load performance by **25%** through DOM optimization, asset lazy loading, and layout rendering improvements.
- Resolved **15+ cross-browser compatibility bugs** across Chrome, Firefox, and Safari, eliminating a 12% user-reported rendering error rate.

Full Stack Developer Intern

Jul 2024 – Sep 2025

Haircoation & CodTech — Chennai / Remote

- Collaborated on **5+ frontend and backend features** using React.js, Node.js, and MongoDB; designed and integrated **10+ RESTful API endpoints** with validation middleware and error handling.
- Built **5+ reusable React component modules** with JWT authentication and Context API-based state management, improving UI responsiveness by **20%**.

Projects

AI Job Portal

 github.com/WhisperedCloud

TypeScript, PostgreSQL, Supabase, OpenAI API

- Production-ready AI recruitment platform for **100+ users** with role-based authentication, job posting, resume upload, and applicant tracking.
- Integrated LLM-based resume scoring to rank candidates against job descriptions with **85%+ match accuracy**; optimized PostgreSQL schemas and indexing, reducing API latency by **35%**.

Leave Flow — Leave Approval & Management System

 github.com/WhisperedCloud

React, TypeScript, Node.js, Express.js, MongoDB

- Built a role-based leave management platform with JWT authentication, automated approval workflows (Employee, Manager, HR, Admin), real-time leave tracking, dashboards, and MongoDB-backed REST APIs for streamlined organizational leave processing.

AI Chatbot with Conversation Memory

 github.com/WhisperedCloud

Python, Streamlit, OpenAI API, Prompt Engineering

- Context-aware conversational AI with session-based rolling memory; applied chain-of-thought and few-shot prompt engineering, reducing hallucinations by an estimated **30%**.

Aura AI — Sentiment Analysis

 github.com/WhisperedCloud

Python, Streamlit, NLP, LLM API

- Real-time NLP sentiment classifier (positive/negative/neutral) deployed on Streamlit with live inference, demonstrating end-to-end AI pipeline ownership.

Recipe Sharing Platform

 github.com/WhisperedCloud

React.js, Node.js, Express.js, PostgreSQL, REST API

- Multi-user CRUD platform with JWT authentication, full-text search, and indexed PostgreSQL schema ensuring data integrity across concurrent users.

Finance Tracker & Resume Toolkit

 github.com/WhisperedCloud

Angular, TypeScript, Chart.js, Gemini API

- Finance Tracker: Angular expense app with Chart.js visualizations and OnPush change detection (**20% render improvement**). Resume Toolkit: ATS-optimized resume generator with dynamic TypeScript form handling and export-ready layout.

Education

Jeppiaar Engineering College, Anna University

2022 – 2026

B.E. Computer Science and Engineering

Honours in Artificial Intelligence and Machine Learning

Chennai, India

Certifications

- **Generative AI Fundamentals** — IBM SkillsBuild
- **Python Essentials 1 & 2** — Cisco Networking Academy
- **Artificial Intelligence** — Infosys Springboard
- **Python Programming** — GUVI

Leadership & Activities

- **Club Service Director**, Rotaract Club of Jeppiaar Engineering College (2024–2025) — Led a team of **3 members**, organized **20+ events**, and improved member engagement and community impact.
- **Associate Club Service Director** (2023–2024) — Coordinated **15+ club activities** and community initiatives while supporting event planning and operations.
- **Smart India Hackathon 2024** — Developed a full-stack solution in a cross-functional team under **36-hour sprint conditions** at India's national competitive hackathon.
- Completed **5 internships** across Full Stack, Frontend, and AI domains; consistent DSA practice covering arrays, linked lists, trees, graphs, and dynamic programming.
